Re: Items for Oversight Subcommittee Consideration

Dear George, Don, Cynthia and Ron:

During the Third Circuit conference held earlier this week Judge Simandle suggested that the next annual assessment consider the following:

1. The development of procedures for better management of pro se litigation to lessen the delays in this area (including management of appointment of pro bono attorney);
2. The development of procedures for prompter disposition of older and/or complex civil cases;
3. Regulation of discovery.

I suggest that the Oversight Committee meet to discuss the above and any other relevant matters. Could we meet in my Chambers in Newark at 1:00 P.M. on May 11?

Very truly yours,

RONALD J. HEDGES
